2. Does the institution use soft dollar, directed brokerage or directed commission, commission recapture or similar arrangements (these arrangements typically involve using brokerage commissions as a means of paying for other related investment services through credits of a portion of brokerage commissions paid rather than through direct payments, or using selected brokers who will rebate a portion of commissions they receive on trades for the investor)? If the answer to this question is yes, the institution must summarize briefly the guidelines that govern the use of arrangements. Yes, the institution has a commission recapture program that includes a network of equity brokers. Managers of separately managed equity accounts are requested, to the extent possible and on a best efforts basis, to direct up to 25% of the annual trades through the network of equity brokers. The commission rate paid on a commission recapture transaction shall, to the extent practical, be no different than the rate an investment manager would normally pay on transactions done via a similar execution venue. Block trading orders shall not be precluded from trading in the commission recapture program.

3. Is the institution associated with an independent endowment or foundation? If the answer to this question is yes, the institution must provide contact information (name and address) for the individual(s) who manage the independent endowment or foundation. The institution must also provide, if available, the market value of the endowment’s or foundation’s investments. Following is the name and contact at each foundation and the market value of its investments as of June 30, 2018, the August 31 numbers were not available at the time of this report.
