## Designation of HIPAA Health Care Components

---

### I. Purpose

#### A. Designation as a Hybrid Entity

The University of Houston (UH) is a Covered Entity whose business activities include covered and non-covered functions. Therefore, UH designates itself as a Hybrid Entity, as defined under 45 C.F.R. § 105, for HIPAA purposes. In accordance with 45 C.F.R. § 105, UH is required to designate its HIPAA covered Health Care Components and document such designation. This guideline serves to fulfill this requirement.

#### B. Scope

Each HIPAA covered Health Care Component must use and disclose Protected Health Information in a manner consistent with the HIPAA administrative, security, and privacy regulations, as well as all other federal and state laws and regulations governing their respective practices.

### II. Definitions

- A. Covered Entity – A health plan, a health care clearinghouse, or a health care provider that transmits PHI in electronic form to conduct one or more of the following transactions: (i) claims, (ii) benefit eligibility, (iii) referral authorization, (iv) enrollment, (v) claim status, (vi) health care premium payments, or (vii) coordination of benefits.
- B. Business Associate – A person or entity, other than a member of a Covered Entity’s workforce, that performs a function or service on behalf of a Covered Entity that involves the use or disclosure of PHI. A Business Associate may be a department within UH or an unaffiliated third party.
- C. Health Care Component – An office, department, or other entity within UH that, acting independently, would constitute a Covered Entity or a Business Associate.
- D. Hybrid Entity – A single legal entity that performs both HIPAA covered and non-HIPAA covered functions.

- E. Protected Health Information (PHI) – Any individually identifiable health information that is created, received, maintained, or transmitted on behalf of a Health Care Component.
